Instructions for assembling custom conference table #4835 Quote #71887 – 06.15.07

- Ⓡ The table will be able to break down into five pieces (three pedestals and two half tops).
- Ⓡ The pedestals will be attached with screws. It is simply a matter of unscrewing them and then screwing them back in the same position.
- Ⓡ The two halves of the top will connect using a Häfele table top connector with Allen wrench and locating dowels (see picture below).
