FINE BENCH MADE FURNITURE

## Introduction

This manual was compiled to not only enable you to custom quote Bausman furniture, but also give you an understanding of the extent of what we are able to do.

As with the previous manual, not all custom quotes will be able to be quoted from this manual and you will need to fax those into the factory.

### **Capabilities:**

We will customize sizes and interchange details and options from other items found in our standard lines. We will not reproduce items from other manufacturers except in concept, for example. You may like the layout of someone else's entertainment center. If you fax us a picture we may say that we can do the same layout using the design of one of our standard items.

When preparing a custom quote, follow these guide lines.

- 1, It is always important to find an item from our catalog to use as a starting point. This will tell us which moldings, rails, panels, tops, and edge details to use.
- 2, Check the price list to come up with the closest size to use as a starting point.
- 3, Check the catalog to see if there is another style that may have the feature you are looking for.
- 4, Go to the index of this manual and look to see if we have a section on what it is you are trying to achieve.
- 5, If possible, manually quote out what it is you want. Be sure to include your workings on your purchase order. As before, we reserve the right to decline any misquoted order at any time.
- 6, If you are unable to quote from the manual then fax it in to the factory and wait the 24 hours for your response. If the quote becomes an order, be sure to include the quote number on your purchase order.

FINE BENCH MADE FURNITURE

## SECTION 1 - Dining Tables

### Aprons

We frequently receive requests to raise the height of a dining table to allow the arm chairs slide under the apron. This normally is not a reasonable request as a typical arm height is approximately 25". In order for this to happen the table would need to be somewhere around 33" high and this is just too high to eat at. One solution to this problem is to increase the overhang on the end of the table so that the arm will slide under the top when no one is sitting at the table and will slide far enough in before it hits the apron. However, this should not be done at the expense of losing the width between the legs on the length or you will lose a place setting. Another alternative is to switch to a pedestal table. The advantage being the apron may be removed completely, whereas on a table with legs the apron is an essential element to provide strength. In some instances we can reduce the apron height slightly. On tables without stretchers this does dramatically reduce the strength of the table.

### Apron Styles

Provence Series

4200 Series

4500 Series

4700 Series

6000 & 7000 Series

9000 & 9200 Series

### Interchanging aprons

Should you wish to interchange an apron style from one series to another add 10% List

### Reducing apron height

Contact factory to determine feasibility on tables with legs.

If factory agrees that reduction is feasible. Add 10%

On pedestal and trestle tables add 5%

### Deleting aprons

This is only an option on pedestal and trestle tables without leaves. Add 5%

### Adding aprons

This is only an option on pedestal tables. Add 10%

FINE BENCH MADE FURNITURE

## Legs

### Leg Styles

Any of our leg styles can be interchanged. However, the leg style will normally determine your starting point when customizing a table.

### Changing Leg styles

To change a leg style from one series to another. Add 10%

### Changing Leg height

To either raise or lower the leg height of a dining table. Add 10%

### Changing leg thickness

If you wish to change the thickness of a leg. Add 10%

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## Stretchers

### Stretcher Styles

### Deleting stretchers

To delete a stretcher. Add 5%

### Adding stretchers

We can only add a stretcher if the leg is either square or has a square block at the bottom.

For a wood stretcher. Add 10%

For an iron stretcher. Add 15%

### Changing stretcher styles

To change a stretcher style. I.e. 'X' to 'H'. Add 5%

## FINE BENCH MADE FURNITURE

### Interchanging top styles

In many cases dining tables are offered with more than one top option. (Check the price list for options)

To change from solid plank top to mitered plank or Inlaid plank top add 15%

To change from solid plank to Parquet top add 20%

To change from solid plank to herringbone top add 25%

To change from Mitered plank or Inlaid plank top to Parquet top add 15%

To change from Parquet top to Herringbone top add 20%

To change from mitered plank or inlaid plank to Solid plank top add 10%

**Important note:** These percentages apply to the extension prices if extensions are required.

### Edge details

Some series use more than one style of edge detail and one edge detail may be used in more than one series. If you wish to change the edge detail from another series it is important to specify which item number it is that you wish to use the edge detail from.

To change an edge detail add 5% List

## Rectangular Dining tables

### *Important considerations when customizing*

Careful consideration needs to be made when customizing the length of a dining table. The reason being is that thought has been given to the standard sizes we offer.

The distance between the legs is what determines how many chairs can fit at the table. You will notice that a 6010 trestle table is offered at 60", 72", 84", 96" & 120".

The 6077 pedestal trestle table is offered at 76", 88", 108" & 124". The reason for

the different sizes offered are because we have designed both tables to seat 2, 3, & 4 people on each side, based on a 19" side chair and we have provided adequate overhang to sit at the ends. (The 60" 6010 will only seat one person on each side) The distances between legs change when different types of leaves are used, as does the apron height in some instances. Therefore this needs to be considered when customizing the length and width of dining tables. A detailed drawing of most of our standard sized dining tables is available from the factory. Be sure you ask for the exact drawing showing the leaves and leg style if you intend to use them.

### Changing length

#### **Changing length up until the largest length offered.**

To change the length of a rectangular dining table (either larger or smaller than the standard lengths offered) add 15% to the closest standard length. If the size you require falls exactly between two standard sizes, add 15% to the larger size.

#### **Changing length beyond largest length offered.**

**Important note:** It may be necessary for us to join two pieces of wood for the rails and add a center cross band to achieve the necessary length. In some cases we will need to build the top in two pieces. (See diagrams below)

Up to 12" above largest standard length add 20%

Between 13" to 24" above largest standard length add 30%

Between 25" to 36" above largest standard length add 40%

Between 37" to 48" above largest standard length add 50%

Between 49" to 60" above largest standard length add 60%

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## **Changing depth**

### **Changing depth up until largest depth offered.**

To change the depth of a rectangular dining table (either larger or smaller than the standard depths offered) add 10% to the closest standard depth. If the size you require falls exactly between two standard sizes, add 10% to the larger size.

### **Changing depth beyond largest depth offered.**

Up to 6" above largest standard depth add 15%

Between 7" to 12" above largest standard depth add 20%

Between 13" to 18" above largest standard depth add 25%

Between 19" to 24" above largest standard depth add 30%

## **Changing length and depth**

Use the percentage from the "Changing length" chart, then add 5% for the depth change.

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## Square Dining tables ( Game tables)

Square dining tables are very simple to customize. A detailed drawing is available from factory showing apron height and leg placement. When requesting a drawing, specify which leg style you plan to use as this will affect the distance between legs.

### Changing size of a square dining table

#### **Changing size up until the largest size offered.**

To change the size of a square dining table (either larger or smaller than the standard sizes offered) add 15% to the closest standard size. If the size you require falls exactly between two standard sizes, add 15% to the larger size.

#### **Changing sizes beyond largest size offered.**

Up to 12" above largest standard size add 20%

Between 13" to 24" above largest standard length add 30%

Between 25" to 36" above largest standard length add 40%

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## Oval Dining tables

### *Important considerations when customizing*

We offer three types of oval dining tables. The elliptical oval, racetrack oval and drop leaf. (See section on Drop leaf dining tables)

Elliptical oval

Racetrack oval.

The elliptical oval is only available with a solid plank top; therefore we do not offer any extensions. The racetrack oval can be ordered in a solid plank top, however when ordered that way it also cannot have extensions. When ordered in a mitered plank or parquet top, center extension(s) are available. A center cross band will be added through the middle of the table.

The elliptical oval top needs to be 84" x 48" in order to sit six people. This is because of the leg placement. If you reduce the size it will only accommodate four place settings. The racetrack oval is more practical for seating and also offers the center extension(s) option.

Detailed drawings are available from the factory showing leg placements. When requesting drawings be sure to specify which leg you will be using as different leg styles have different thickness' and therefore the distance between legs may change.

<b>Size</b>	<b>Number of seatings</b>
54" x 42"	4
54" x 42" With one 24" center extension	6
54" x 42" With two 24" center extension	8
78" x 42"	6
78" x 42" With one 24" center extension	8
78" x 42" With two 24" center extension	10

### **Changing length on an oval dining table**

#### **Changing length up until the largest length offered.**

To change the length of an oval dining table (either larger or smaller than the standard lengths offered) add 15% to the closest standard length. If the size you require falls exactly between two standard sizes, add 15% to the larger size.

# BAUSMAN & COMPANY, INC.

## FINE BENCH MADE FURNITURE

### **Changing length beyond largest length offered.**

**Important note:** It may be necessary for us to join two pieces of wood for the rails and add a center cross band to achieve the necessary length. In some cases we will need to build the top in two pieces. (See diagrams under rectangular dining tables)

Up to 12" above largest standard length add 20%

Between 13" to 24" above largest standard length add 30%

Between 25" to 36" above largest standard length add 40%

Between 37" to 48" above largest standard length add 50%

Between 49" to 60" above largest standard length add 60%

### **Changing depth on an oval dining table**

#### **Changing depth up until largest depth offered.**

To change the depth of an oval dining table (either larger or smaller than the standard depths offered) add 15% to the closest standard depth. If the size you require falls exactly between two standard sizes, add 10% to the larger size.

#### **Changing depth beyond largest depth offered.**

Up to 6" above largest standard depth add 20%

Between 19" to 24" above largest standard depth add 35%

### **Changing length and depth on an oval dining table**

Use the percentage from the "Changing length" chart, then add 10% for the depth change.

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## Round Dining tables

### *Important considerations when customizing*

Customizing round dining table can be quite complicated. Pedestal tables are quite straight forward, round tables with legs require more attention. Smaller diameter tables such as 38" & 42" can only seat four people. The legs, most likely are placed out near the edge of the table and the chair is intended to slide between the legs. As the diameters get larger, the size of the base may actually get smaller. This allows more chairs to be used without the legs being a hindrance. A sketch of our round dining tables, showing the leg placement is available from the factory.

Diameter	Circumference	Approximate seating ( Table with legs)	Approximate seating ( Pedestal table)
36"	113"	4	4
38"	119"	4	4
42"	132"	4	5
48"	150"	4	6
54"	169"	6	7
60"	188"	7	7
66"	207"	8	8
72"	226"	9	9
84"	263"	10	10
96"	301"	12	12

## Changing the diameter on a round dining table

### **Changing diameter up until the largest size offered.**

To change the diameter of a round dining table (either larger or smaller than the standard sizes offered) add 20% to the closest standard size. If the size you require falls exactly between two standard sizes, add 20% to the larger size.

### **Changing diameter beyond largest diameter offered.**

Up to 12" above largest standard size add 25%

Between 13" to 24" above largest standard length add 35%

Between 25" to 36" above largest standard length add 45%

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## Drop leaf Dining tables

### *Important considerations when customizing*

As you increase the depth of a drop leaf dining table, it may be necessary to increase the depth in the closed position also. This will give the table the stability required to support the table when in the open position.

The drop leaf tables without the stretchers and wings ( Such as the French drop leaf tables) will not support as large of a leaf as those with. This is due to the strength of the pullout supports.

### Changing length on a dropleaf dining table

#### **Changing length up until the largest length offered.**

To change the length of a dropleaf dining table (either larger or smaller than the standard lengths offered) add 20% to the closest standard length. If the size you require falls exactly between two standard sizes, add 20% to the larger size.

#### **Changing length beyond largest length offered.**

**Important note:** We cannot exceed 110" in length using a solid plank top

Up to 12" above largest standard length add 20%

Between 13" to 24" above largest standard length add 30%

Between 25" to 36" above largest standard length add 40%

### Changing depth on a dropleaf dining table

#### **Changing depth up until largest depth offered.**

To change the depth of an oval dining table (either larger or smaller than the standard depths offered) add 20% to the closest standard depth. If the size you require falls exactly between two standard sizes, add 20% to the larger size.

#### **Changing depth beyond largest depth offered.**

Up to 6" above largest standard depth add 20%

Between 7" to 12" above largest standard depth add 25%

Between 13" to 18" above largest standard depth add 30%

Between 19" to 24" above largest standard depth add 35%

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## **Changing length and depth on a dropleaf dining table**

Use the percentage from the "Changing length" chart, then add 10% for the depth change.

## **Extensions**

We offer three types of extensions. Self Storing, center and end extensions.

All of the dining tables in our line that are able to accept extensions are already offered with them.

Should you require a second center extension add 25% List to the single center extension price.

***Important note:*** The factory may determine that the table requires a center drop down leg to support the two extensions. This will be added at our desecration.

# BAUSMAN & COMPANY, INC.

FINE BENCH MADE FURNITURE

## COFFEE TABLES, END TABLES AND SOFA BACK TABLES

The following methods ***apply only up to the largest standard size*** listed for that item in the price list. If the size you require is larger than the largest standard size, it must be quoted by the factory.

### **Width/depth –**

Rectangular or oval tables - length add 10% list  
- Width add 10% list  
- length and width add 15% list

Round tables - to change the diameter add 15% list

Square tables - length/width add 15%

**Height -** To increase or decrease add 10% list

**Top style -** To change top style between solid plank, mitered plank, and inlaid plank add \$165 list

**Legs -** To change placement on a standard size add 10% list  
To interchange legs styles add 5% list

**Stretchers -** To delete or change stretcher add 5% list  
For an "X" stretcher on rectangular tables add 10% list

# BAUSMAN & COMPANY, INC.

## ARMOIRES

**Basic options** are listed in the front of the price list

**Width -** Increase 1-4" add \$850 list  
Increase 5-10" add \$1050 list  
Decrease add \$1050 list

**Depth -** Increase up to 2" add \$850 list  
Increase 3-5" add \$1150 list  
Decrease add \$850

**Height -** Increase or decrease up to 5" add \$1250 list

### **Changing door sizes/ moving fixed shelf between doors-**

To move fixed shelf (on armoires with four doors) add \$850 list

Note: If the top or bottom section sizes need to be changed, the side panels will be changed to correspond with the doors.

### **Door panels, change from wood panels to beveled glass panels-**

Top doors- English doors add \$450 list  
French doors add \$650 list  
Bottom doors- English doors add \$250 list  
French doors add \$250 list

## SIDesections/BOOKCASES

**Width -** Increase 1-5" add \$1100 list  
Increase 6-12 add \$1750 list  
Decrease add \$1100 list

**Depth -** Increase 1-4" add \$850 list  
Increase 5-12" add \$1150 list  
Decrease add \$850 list

**Height-** Increase or decrease up to 5" add \$1250 list

### **Door panels, change from wood panels to beveled glass panels-**

Top doors- English doors add \$450 list  
French doors add \$650 list  
Bottom doors- English doors add \$250 list  
French doors add \$250 list
